

SAWITTA FUNGLADDA

Address: 42 Soi Nak Niwat 16, Lat Phrao, Lat Phrao, Bangkok 10230
Phone: 092-839-8866
Email: sawitta.fld@gmail.com

SUMMARY

Computer and AI Engineering student with a strong foundation in Full-Stack Development. Experienced in building scalable web applications and hybrid systems using React, TypeScript, and Python, alongside managing high-volume data architecture. Looking to leverage my technical expertise and problem-solving skills in a dynamic Software Engineering role to create impactful and efficient technological solutions.

EDUCATION

University of the Thai Chamber of Commerce (UTCC) **August 2023 - Present**

Bachelor of Engineering (Computer and Artificial Intelligence Engineering)

- GPAX: 3.61

TECHNICAL SKILLS

- **Languages**: Python, TypeScript, JavaScript, SQL, Java, C++
- **Frontend & Mobile**: React, React Native, HTML, CSS, Tailwind CSS
- **Backend & Cloud Tools**: Node.js, Google Cloud APIs, Docker, Git, MySQL
- **Design & Hardware**: Figma, Micro:bit, Embedded Systems, Network Cabling
- **Soft Skills**: Analytical Thinking, Teamwork & Collaboration, Adaptability, Self-Learning

PROFESSIONAL EXPERIENCE

Full-Stack Engineering Intern | CardX Co., Ltd. **June 2026 - September 2026**

- Received requirements from the Business Analyst (BA) team and developed the web application for the CANDA Automate Test project, coordinating with the QA team during testing and verification (project currently at Proof of Concept / POC stage, not yet in production).
- Worked with Playwright for automated testing, focusing on maintaining and refining test conditions.
- Gained hands-on experience with new technology stacks in a real-world engineering environment.

Document Specialist | Flowfusion Technology **January 2026 - July 2026**

- Structured and formatted official documents using Word automation tools, including auto-generated Tables of Contents and auto-numbering (multilevel lists), ensuring strict adherence to corporate layout standards, precise pagination, and professional visual alignment.

Frontend Developer (Part-time) | The Ocean Go Co.,Ltd. **July 2025 – April 2026**

- Develop and maintain responsive UIs for Web and Mobile Applications using React, ensuring seamless cross-platform performance.
- Collaborate with backend teams to integrate APIs and enhance user experience.

Full-Stack Developer (Contract) | Math Talent Foundation **June 2025 - November 2025**

- Architected an End-to-End Exam Management System, handling the full lifecycle from user registration to automated certificate generation.
- Developed a secure Admin Dashboard and managed the database architecture for high-volume applicant data (Highly applicable to banking data management).

Data Auditor & Cleanser (Contract/Part-time) | Intelligent Travel Guide **May 2025**

- Audited and cleansed datasets prior to system entry, demonstrating strict attention to detail and ensuring high data accuracy and integrity.

Freelance Developer & Digital Specialist | Fastwork **December 2025 - Present**

- Software & AI Development: Developed custom Python scripts based on specific client requirements. Engineered an AI-powered Kidney Stone Detection application utilizing Python for medical image processing and React for the frontend.
- QA & Game Testing: Conducted comprehensive game testing, providing actionable feedback and constructive recommendations to development teams to enhance gameplay mechanics and user experience.
- Data Management: Performed targeted data extraction and lead generation by sourcing professional data from LinkedIn and organizing it systematically in Excel for accurate record-keeping.
- Graphic Design: Designed visual content and promotional graphics for accommodation and hospitality businesses to support marketing campaigns.

Teaching Assistant & STEM Instructor | UTCC & KMUTNB **June 2025 - November 2025**

- Mentored students in Python and C programming, reviewing code and explaining complex logic.
- Acted as a technical instructor for Micro:bit workshops and provided troubleshooting support for Network Training sessions.

KEY PROJECTS

Command Post Visualization Dashboard | TESA Top Gun Rally 2025

- **Role**: Frontend Developer (Command Post)
- Developed a superior real-time drone defense dashboard using React & TypeScript.
- Visualized complex offensive/defensive data streams with zero latency to aid critical decision-making. (Awarded "Top Score Command Post Visualization")

AI-Powered Photo Retrieval LINE Bot

- **Role**: Full-Stack Developer
- Developed a LINE Chatbot system featuring a React/TypeScript Control Dashboard for managing API tokens and system configurations.
- Engineered the backend using Python to process images via facial recognition and automate photo retrieval from Google Drive.

Certifications, Awards & Hackathons

- **Winner**: Top Score Command Post Visualization - TESA Top Gun Rally (2025)
- **Competitor**: Women Thailand Cyber Top Talent (2022) (Highlights interest in Cybersecurity)
- **Participant**: Cyber Warrior Hackathon (2025) & IoT Exploratory: Innovating Healthcare (2025)
- **Certified**: Network Cabling for Engineering - LINK (2025)

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Head of Recreation & Event Coordinator | Gear Freshy & Camp Freshy **August 2024 & September 2025**

- Led the recreation team and managed large-scale group dynamics to build relationships among engineering freshmen, showcasing strong project management and communication skills.

Alumni Guest Speaker | Freshmen Orientation 2026, Faculty of Engineering, University of the Thai Chamber of Commerce **August 2026**

- Led the recreation team and managed large-scale group dynamics to build relationships among engineering freshmen, showcasing strong project management and communication skills.
